Introduction

The E2M2R storage server series rackmount not only has the stylish appearance, but also has the functionality and flexibility to make the E2M2R a new breed of storage server. As SAS and SATA technology has become a more cost effective solution, iStarUSA has taken a step forward to prepare the migration of new technology to support both latest SAS and SATA hard drives. We also provide redundant power supply to ensure total up time of mission critical server applications.
